REMEMBER THAT YOUR REGIS TRY TAX MUST BE PAID BY SIX O'CLOCK THIS AFTERNOON.

IMPORTANTA

By the 11th section of the Secret Ballot Law, all Registry Taxes must be paid to the Collector by SIX O'CLOCK THIS, FRIDAY AFTERNOON that is, the law requires the Collector to be at his office from 12 to 6 o'clock for the last six days before the fourth day preceeding the day of voting. We hope to be able fully to comprehend this foolish law, after a while,

CERTIFICATE VOTERS.

All Whige who intend to vote by cer tificate should see to the matter withou delay; those who want certificates from other towns, will please give notice a this office, and the matter shall be at tended to. See to it at once, as there is no time to be lost.

& We again urge upon all Whigh careful consideration of the following his

that at the appreaching April election they will vote, for the first time, under the new Law, which is familiarly known as the "Secret Bellet Law." As the made of voting in entirely new, and as the provisions of the Law are such that many, notwithstanding the greatest pre caution, will be very liable to lose their votes, we feel it our duly to mate, as briefly as possible, and yet comprehensively, the prominent provisions of the law, and what will be required of the electors. We have already expressed our dislike to the Law, as a childish, faolish and embarrassing affair; yet, while it remains in force, it is the duty of every good citizen strictly to comply

The Town Council will appoint two suitable persons to take charge of and deliver the envelopes; these persons must be at the place of voting when the Polls open, and must remain there until they close. Every voter must apply to one of them, in person, for an envelope and there men can only deliver one of each kind of envelopes to such persons as they know to be voters, by an examination of the Registry, and us they deliver the envelopes, they must check the names on the Registry list. The envel ope in which you will place were ticket for State officers, will have the coat-ofarms of the State upon it; and that in which you place your ticket for Memhers of the Amenibly, will have upon it the arms of the State, and also the words "for Senator and Representatives."

Having obtained these, you place your tickets in their respective envelopes, and then wet the gum and press the envelope together so as to seal it : but you must be careful not to write your name on the ticket, as the law has heretofore required, because, il you do, the ticket will be destroyed without heing counted, when the polls are closed if you accidentally place two tickets of the same kind in the same envelope your ticket will be lost, as it is the duty of the Moderator to destroy all such ; il the envelope "bears any impression or device or color, designed to distinguish such envelope from others of the same kind," it is the duty of the Moderator to reject it with all its contents,"

Having prepared your envelopes, as you go up to the ballot box, you call out your name distinctly, and the Moderator repeats it aloud, and then causes the same to be checked on the Registry; you then hold up the envelone so that the Mederator can distinctly

see that you have but one in your hand, and also that it bears no mark or device by which it may be distinguished from the others. Having gone through with all this ceremony, you will then deposite your envelope in the opening on the top of the ballot box.

All voters must be careful in preparing their ballote, not to soil them or make any impression upon them, by which they may be distinguished, because all auch votes will be lost.

Be careful that you place each ticket In the proper envelope; and also that the gum on the envelope is not too wel or not wet enough, as, in either, case it will not adhere,--- and if any envelopes, are found even accidentally unsealed when the box is opened, such envelopes, with all their contents, will be destroyed, without being counted.

We are thus particular in stating, os briefly as possible, the main features of the new law, because we presume that the majority of voters will not take the trouble to read the law carefully. through, and thoroughly understand what they have to do. The law is ridiculous, and the somer it is repealed, the better it will be for all concerned. It affords no security in elections which did not previously exist; the perplexities of this system are innumerable, and the chairces of many persons losing their votes; although they may have deposited them in the ballot box in good faith, are very great. The above directions must in all cases be strictly complied with, by every voter.

The Proxes this year have been printed upon small slips of stiff paper. The object is to have them go into the secret envelope without being doubled, as in that case they might press open the en-velope and the votes be lost.

Remember that the envelope must be senurcly scaled, for if the gluten does no sitch the vote is lost. A cup of glue or of strong adhesive paste should be provided at every table with the tickets.

Be careful not to make any mark upon the englang as in that case, the vote the envelope, as in that case the vote will be rejected,

Be especially careful not to write your name on the ballots, or this will de-stroy the vote. There is much danger that old fashioued people may reject this precaution, and the Whige should be at hand to warn them .- Prov. Jour

RECOVERY OF A LOST WORK OF FRANKLIN.-A London pertodical entitled "Notes and Queries." announces the recovery of a lost work of Benjamin Franklin. It is entitled, " A Diesertation on Liberty and Necessity, Pleasure and Pain, in a Letter to a Friend? This was Franklin's first work, as he tells us in his autobiography, printed in London in 1796 when he was colupart as an answer to Wollaston's Religion of Nature." But a few copies were printed, and most of them were afterwards destroyed by Franklin himself, under the apprehension that the paniphlet oright have an evil tendency. A Mr. Crossley, of London, has recently discovered a copy of it in a volume o bound tracts. It is an 8vo, of 16 close ly printed pages.

THE ARMY.-The Washington correspondent of the Philadelphia Ledger states that the Committee on Millitary Affairs of the Senate, have recommended "a re-organization of the army, and capecially of the artillery service, which, if carried out, would render the army far more efficient than it now isenable it to be at any time extended to 36,000 men, and be well officered, and yet not increase the expense of it mo. terially. An attempt will undoubtedly if it is genuine, he will himself give a be made to carry a bill, embodying description and history of it, and search these improvements, through both Houses of Congress.

The London Athenseum states that a lady in England line in her possession a scaled package of the late Margaret Fuller's manuscripts-probably intended by her for publication. They are supposed to be the journals she kept during her stay in England .-Upon her departure for the Continent, the placed them in the hands of a friend in London, with the injunction that the package should be returned with the seal unbroken, to her hands. No provision was made for death, and the lady who has the package feels no little diffculty as to the course she should pursue. The papers, of course, belong to Miss Fuller's heirs.

The Washington National Monument Society want more money for that work, Each course, two feet in height, costs \$2,000-two courses can be laid per month-but the contributions are only \$2000 monthly. The Society which makes the appeal, says that three cente from each white inhabitant of the United States would be sufficient to complete the monument in a few years.

ICAn act of justice has tenfold weight when it is timely as well as just; but the following letter, although now first published a quarter of a century after it was written and years after the stander which it relutes had done its work, is worthy of perusal even now :

DETROIT, April 14, 1825. DEAR Sin: I have just finished the perusal of your masterly address to your late constituents, and I cannot refrain from expressing to you the high satisfaction it has allorded me. It is a frium-phant refutation of the VILE SLANDERS which have been propagated, respecting the motives of your conduct in the peculiar circumstance in which you were recently placed. You may safely commit your character to the judgment of your countrymen and of pos-terity. They will not full to award you full justice. Imust ask your indulgence for this almost involuntary tribute to your claims and services, so strong the impression which your appeal has With warm regard, I am, dear Sir,

Sincerely yours, Hon. H. CLAY. LEWIS CASS.

"General," said the Hungarian. "I reckon my shite and my closely?" After the tragical result of the trial of Count Bocarme for poisoning with nicotine, it was announced that his widow had sought solace for her misery n a convent. But she preferred another consolution, and taking sumptuous apariments at Brussels, has led there a very brilliant, if not very much consured, career. Her hotel was naturally the center of constant curiosity, nor did the public space a woman who so little regarded the proprieties of her situation. During the recent Carnival, and on the last day allotted to the grotesque pleasunity of that season, the porte cochere of great door of the Hotel Bocarmo, was observed decorated with garlands of tobacco, enwreathed with inscriptions of every kind, but of all which nicoline was the invariable theme.

The marriage of Jeany Land has given great eatistaction in Hamburg, in which City the lamily of Mr. Goldschmidt reside. The news preceded the arrival of his own letters, and the report was treated as a joke until his parents received from Mr. Goldschmidt himself the tidings of its truth.
